Our AI Voice Bot provides real-time call tracking, recording, and intelligent transcript generation

AI Nancy Bot – “Live Demo”

Flow of the call as follows:

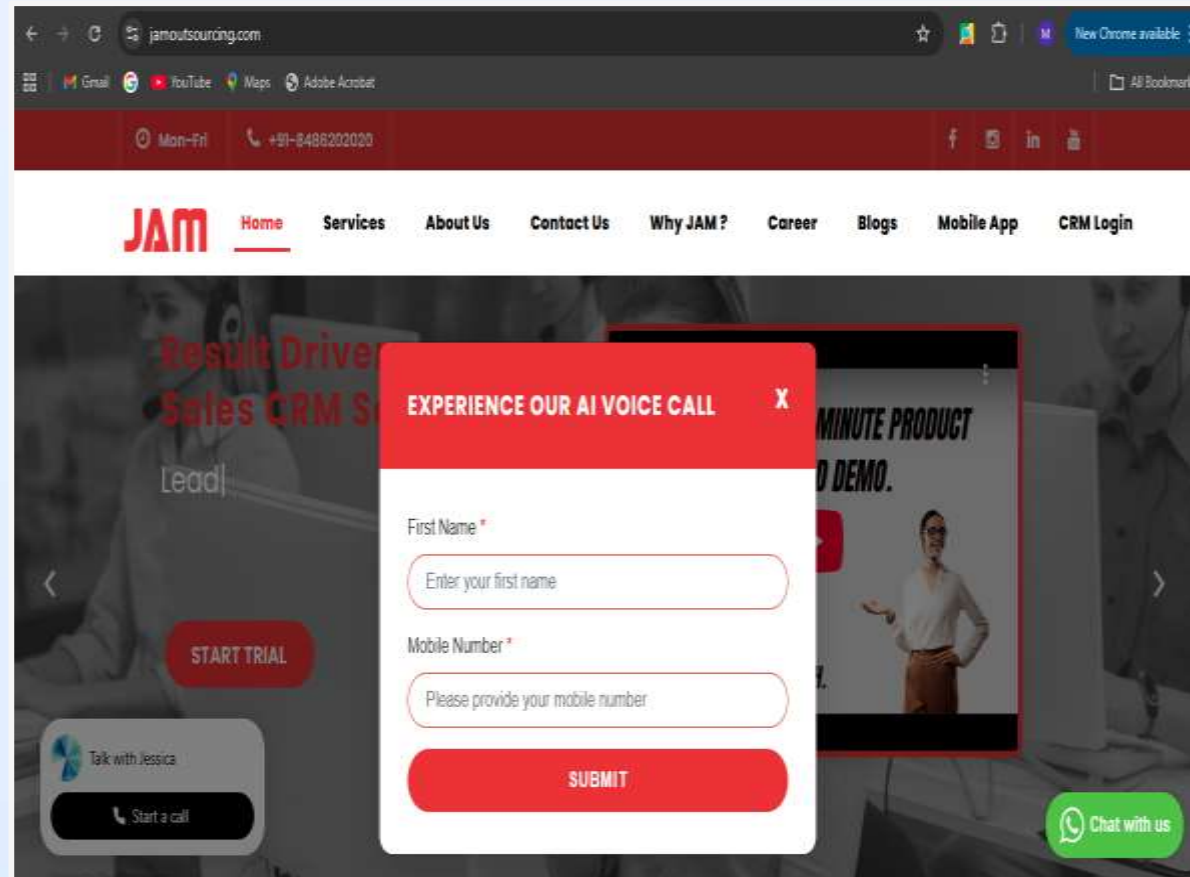

visit: www.jamoutsourcing.com

 **Details:** Share your name & number with Nancy Bot, in the box as displayed in the image.

 **Instant Call:** Nancy shall call on the number and confirm your name and would ask for an input on your city.

Once the City is confirmed, Nancy shall store your details in CRM and share a template message with you via SMS, WhatsApp and shall also inform the JAM's Business head of the same.

 **Transcript:** The recorded call shall then share a small transcript in the form of a summary.

The screenshot displays the JAM website interface. At the top, there is a navigation bar with links: Home, Services, About Us, Contact Us, Why JAM?, Career, Blogs, Mobile App, and CRM Login. A prominent red overlay box titled "EXPERIENCE OUR AI VOICE CALL" is centered on the page. This box contains a form with two input fields: "First Name *" and "Mobile Number *". Below these fields is a red "SUBMIT" button. The background of the website shows a blurred image of a person wearing a headset, with text overlays like "Result Drive Sales CRM S", "Lead", "START TRIAL", and "MINUTE PRODUCT DEMO". In the bottom right corner, there is a green "Chat with us" button.

Intelligent Transcript & Summary Generation

Key Capabilities

Purpose Identification

Identifies the purpose of the call

Key Information Capture

Extracts important details
